

Roll the dice and move your team's counter the correct number of squares.

When you land on a square with a measurement - convert the amount to any other appropriate unit
eg
1.5kg to 1500g

Landing on a STAR square will give your team that many NAMES IN A JAR

Don't land on the SKULL AND CROSSBONES - your team will miss a turn.

Double
Your
Total
!!!!!!!

Land on this GREAT square and it will double whatever your team's total is in each column!

On the score sheet record the new amount in one of your team's columns.

The winning team will have the most correct answers in any unit of measurement at the end.
